

API Documentation: Nurse Profile Update

This API allows a registered Nurse (Provider) to update their profile details. Since this endpoint handles profile image uploads, requests must be sent using `multipart/form-data`.

1. ENDPOINT OVERVIEW

- **URL:** `{{BASE_URL}}/provider/nurse/dash/profile/update`
- **Method:** `PUT`
- **Content-Type:** `multipart/form-data`
- **Headers:**

Authorization Bearer <JWT_TOKEN>

2. REQUEST PAYLOAD (FORM-DATA KEYS)

The following fields can be sent in the request body as `form-data`:

A. Updatable Fields

Key	Type	Description / Accepted Values	Example
<code>profileImage</code>	<code>File</code>	Image file for the profile picture	<i>(Binary File)</i>
<code>name</code>	<code>String</code>	Nurse's full name	<code>Jane Doe</code>
<code>alternatePhone</code>	<code>String</code>	Optional secondary mobile number	<code>+919999888877</code>
<code>password</code>	<code>String</code>	New password (will be automatically hashed on the server)	<code>NewSecurePassword123</code>
<code>country</code>	<code>String</code>	Country name	<code>India</code>
<code>state</code>	<code>String</code>	State name	<code>Punjab</code>
<code>city</code>	<code>String</code>	City name	<code>Ludhiana</code>

address	String	Local residential address	Street 4, Phase 1, Model Town
gender	String	Accepted values: Male , Female , Other	Female
about	String	Short professional bio / description	Dedicated ICU nurse...
experience Years	Number	Total years of experience	5
speciality	String	Area of clinical focus (e.g., ICU, Pediatric)	ICU
location[lat]	Number	Geolocation Latitude	30.9010
location[long]	Number	Geolocation Longitude	75.8573
bankDetails[bankName]	String	Bank name	HDFC Bank
bankDetails[accountHolderName]	String	Name on the bank account	Jane Doe
bankDetails[accountNumber]	String	Bank account number	501004561 2345

<code>bankDetails[ifscCode]</code>	String	IFSC / Bank routing code	HDFC0001234
<code>bankDetails[upiId]</code>	String	UPI ID	janedoe@upi
<code>bankDetails[accountType]</code>	String	Accepted values: Savings, Current	Savings

B. Read-Only / Restricted Fields

For security and integrity reasons, sending the following keys in the payload will **not** modify their values on the database:

- `email` (Primary Email Address)
- `phone` (Primary Mobile Number)
- `role` (Strictly immutable; fixed to "Nurse")
- `profileStatus` (Can only be modified by the Admin)

3. API RESPONSE (SUCCESS)

On a successful update, the server returns a **200 OK** status with the updated nurse document:

codeJSON

```
{
  "success": true,
  "message": "Profile Updated Successfully",
  "data": {
    "_id": "664c1a2d3e4f5a6b7c8d9e0f",
    "name": "Jane Doe",
    "email": "nurse.jane@example.com",
    "phone": "+919876543210",
    "alternatePhone": "+919999888877",
    "profileImage": "uploads/nurses/profile-1719912400.jpg",
    "role": "Nurse",
    "profileStatus": "Pending",
  }
}
```

```
    "isActive": true,
    "country": "India",
    "state": "Punjab",
    "city": "Ludhiana",
    "address": "Street 4, Phase 1, Model Town",
    "gender": "Female",
    "about": "Dedicated ICU nurse with 5 years of experience in
emergency care.",
    "experienceYears": 5,
    "speciality": "ICU",
    "rating": 4.8,
    "totalReviews": 12,
    "location": {
      "lat": 30.901,
      "lng": 75.857
    },
    "bankDetails": {
      "accountType": "Savings",
      "bankName": "HDFC Bank",
      "accountHolderName": "Jane Doe",
      "accountNumber": "5010045612345",
      "ifscCode": "HDFC0001234",
      "upiId": "janedoe@upi",
      "isVerified": false
    },
    "documents": {
